

Condensation Work card

What you need:

- A jug of hot water
- A clear bottle
- An ice cube
- Black paper

What you do:

- Fill the clear bottle with water. **CAUTION** - an adult should help you.
- Leave for a few minutes, then pour half of the water away **CAREFULLY**.
- Sit the ice cube on top of the bottle.
- Hold the black paper behind the bottle and observe what happens.
- Discuss what you observe.
- Now complete the Condensation Worksheet.
