

Condensation Worksheet

What I used:

-
-
-
-

What I did:

1. _____
2. _____
3. _____
4. _____
5. _____

Draw a diagram of what you observed. Label accurately.

When black paper was placed behind the bottle I saw w_____ v_____ rising. This is warm a_____.

When the warm air hit the ice cube it changed into tiny w_____ d_____. These droplets are called c_____.

Can you think of everyday places where you can observe condensation?
