

Evaporation Work card

What you need:

- 2 beakers the same size
- Clingfilm/Foil
- A marker pen
- Water

What you do:

- Fill both beakers with exactly the same amount of water.
- Use the marker pen to mark the water level on each beaker.
- Cover one of the beakers with foil/Clingfilm.
- Leave both beakers in a warm place for about 7 days.
- After 7 days check the levels in each beaker.
- Discuss your findings.
- Now complete Evaporation Worksheet.
